Carla has been with the firm for over 30, years since 1986. She is responsible for the firm's overall computer operations in both offices. Carla also manages the payroll processing department. She is responsible for the e-filing and acknowledgements of tax returns. In addition, Carla installs computer software for a variety of business applications and troubleshoots for many of our clients on their day-to-day activities with these programs. Carla is a member of the firm's Leadership Team. She specializes in the following services:

- Payroll Specialist
- Computer Technology
- Accounting Software Installation
- E-File Controller

She demonstrates her professional commitment by annually attending workshops and seminars that keep her informed of the latest computer programs and technology available to best serve our clients.

Carla and her husband, Linus, reside in Coldwater, Ohio, and have three grown children.

"I think it is amazing how far technology has come since I've started working here. When I started, our entire office was run with one large computer that took up an entire room and all data was keyed in by me. Now I can manage our servers from my I-Pad from anywhere."
